

# Most Important Application

Educreations

# Description

This app is a presentation app, that combines live lessons with modern day technology.

Educreations is used for creating presentations live, instead of doing a slide style presentation, that is all premade. this app will create a video of your voice and your live presentation to publish or share with your class.

# Capabilities

- the ability to join a class to share projects
- create live presentations
- record audio and screen play to present later
- ability to publish the presentation.

# Use in Classroom

- Great for both teachers and students
- create short instructional video
- Able to share instantly with others
- creatable classrooms/lessons
- Free
