

Evernote

one workspace all in one app. 🐘

What can we do one Evernote?

There are many cool uses for Evernote other than just note taking. 😊

Use Evernote for many things, including:

- Use it on any device.
- Take pictures of documents to use on device.
- Share your work with others.
- Easily showcase anything that matters.
- Use the clipper to take articles from your browser.

This app will be useful to us because of all of its unique features. It not only offers notes, but it gives you the opportunity to work together, talk with other users, and more.
