

The Homework App

Summary: The Homework App is a very useful app, especially for high school students. You can add in your own subject doritos fields and schedule. Once you add in your subjects, you can add homework, tests, quizzes, etc. and ask the app to remind you, once or multiple times. It lets you set priorities and see the details of an assignment. Once completed, you can mark an assignment as complete. It's an app that continually helps you stay organized.

Lesson Application: Teenagers are very forgetful, with 5 or more classes a day, it is hard to juggle all these classes and not forget things. So The Homework App can help with that. The Homework App constantly reminds you of important school work. Ranging from tests, to homework, to notes. The Homework App is every teenagers best friend. The Homework App is so good that it should be required in all schools. The app is free and if you want an upgrade it's only 3 dollars. The school can actually buy the app in bulk for students which means all students can have The Homework App Pro. This has many advantages such as remove ads forever, micromanage your subtasks, enter your teachers details, and add pictures to notes.
