

# play 2 prep®

- This is a game that will help you self study, improve your English skills, and help you prepare for the ACT.
  - Karen Berlin Ishii, NY test prep examiner, says " [the categories tested on the app] can be very helpful in guiding review and further test prep."
  - The app allows you to play games with other people and quiz them so that you can help each other get better.
  - You also can take short tests on the app that show you how well you understand the concept. The test results show you the areas that you need to improve in.
- 
- In this class, we will be preparing for the EOC, which is made by the same people that make the act. The app will help us be ready for it, because it determines which areas we are the weakest, and helps us improve them.
