

Microsoft PowerPoint

Laura feck, Kayla flatter, Olivia Fortenbery, Aaron elswick

Microsoft PowerPoint allows you to create fun and exiting slides to present your creativity!! You can create your ideas exactly the way you want with ease. By clicking through your slides you can show your presentation to your peers without confusion.

Using the App is simple:

1.sign in using your school email.

2.click "new" on the left hand side.

3. *Pick your theme.*

4.you can then create and add anything to your slides that you desire.

We as a class could use this app to help us in many ways. If presenting a topic, PowerPoint allows you to

add tables, charts, pictures, clip art, etc. it's easy and convenient to understand. It can also be used individually or by a group. It's easily accessible to a group and from home. Since it's so easy to use, with no trouble or confusion we should be able to get our projects done on time.
