

QUIZLET

"I LOVE this app. Before every test I go on my laptop and type up a variety of flash cards, literally everything that was covered in class. My phone is logged into the same account so I am able to access the cards in my iPhone. So I can really study ANYWHERE. It helps me so much to memorize this way!! So easy!! Definitely recommend!!!! 10 stars!" -Jonaticjas

Quizlet is a studying tool that you can use anywhere. You can download it on your iPhone, iPad, or iPod touch with iOS 7 or later. This FREE app allows you to

- Study on the go**
- Play games that make learning fun**
- Create your own flash cards (& search millions already made)**
- Improve your study habits**
- Study with images and audio, great for all learning types**
