App: Show Me

Description:

With the free ShowMe App you can help your audio learners and visual learners. You are able to record your voice to create a walkthrough, or you can use the whiteboard feature and record your writing. Type out what you want to say, and talk over it! Or vice versa, talk about what you're presenting in your recording and write along to show examples, walkthroughs, etc. "Groups" allows teachers to share their Show Me's and interact with students privately. Teachers with ShowMe Premium subscription can create an unlimited amount of groups and invite their students. Students can join groups for free!" . "Educators from over 53,000 schools use ShowMe" , Says showme.com.

Features

- Voice-record
- Multiple brush colors
- Enter text
- Pause and erase
- Import pictures from your photo library, built-in camera, or web image search
- Import documents as pictures from dropbox, or google drive
- Create video from any document
- unlimited lesson length
- Free to upload and share your recordings with friends
- Easy embedding for sharing anywhere
- Manage students with Groups

REVIEWS

Pre-k, k teacher of English Language Arts, Math, Science, Social Studies, and Arts, Dana Villamagna from Common Sense Graphite gave ShowMe $\frac{3}{5}$ stars and says; "With the playback option, students can self-assess their work and make adjustments before sharing or presenting. Students can not only learn and reinforce subject matter skills, but they'll potentially develop higher-level thinking skills as they teach others."

Jason J. also from Common Sense Graphite Reviews teaches Math and Science for grades K, 1, 4, 6, 7, and 8. He gives ShowMe $\frac{4}{5}$ stars, and explains how he used it in his classroom. "When prepping a lesson, I recorded a screencast that would be embedded in the class website or linked so students could access at any time. This usage would also be helpful in a blended or flipped classroom environment."

FIND THE RED AREA

$$\begin{array}{r}
 \square - 2 \odot \text{'s} \quad 288 \\
 24 \cdot 12 - 2\pi \cdot 6^2 \quad -226 \\
 \hline
 298 \quad 62
 \end{array}$$

Teachers and students are able to create videos for lessons or presentations/tutorials. Using this in classes such as English, would help with things like presentations or debates, or even just note taking.

Example 1

Pad 11:51 AM 96%

San Kim My ShowMes Explore + Create

- Home
- Math
 - Elementary Math
 - Arithmetic
 - Algebra
 - Geometry
 - Algebra 2
 - Trigonometry
 - Precalculus
 - Calculus
 - Statistics

Lesson 1: The Order of Operations

Lesson 2: 3.1. Lines and Planes

Lesson 3: 1.4 Segments, Rays, Parallel Lines & Planes

Lesson 4: INTERSECTIONS & PLANES

Lesson 5: Red hat, Blue hat puzzle

Lesson 6: 2.3 Doubles Facts

Lesson 7: Mean = average, Median = middle, Mode = most

Lesson 8: Like terms = terms with the same variable raised to the same power

Using this app, students can see multiple lessons, even for different classes. Teachers can create lessons to share with the students in case of snow days, where students would be able to see the lesson from home. Or, even days in class when the students need to see a diagram or just a short walk-through of a problem.
