

Socrative Student

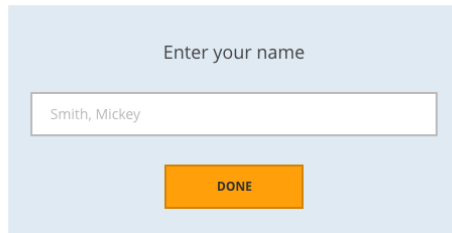

Students share their understanding by answering formative assessment questions in a variety of formats: quizzes, quick question polls, exit tickets and space races. Once students launch the Socrative Student App, they'll be prompted to join the teacher's room via the teacher's unique code. No student accounts necessary! ([Apple App Store Description](#))

Features

- Visualize student and whole class understanding
- Multiple choice and True/False questions
- Open-ended questions and vote on the results
- End of class Exit Tickets
- Play games with our Space Race!
- Class, Question and Student level reports

This is the first screen the student will see when they open the Socrative Student App. The teacher will have to distribute a class code for students to join.

Then students will be prompted to enter their name so the teacher can see who has joined the class and the score of whatever task is given.
