

Socrative Teacher

Engage, assess and personalize your class with Socrative! Educators can initiate formative assessments through quizzes, quick question polls, exit tickets and space races all with their Socrative Student app. Socrative will instantly grade, aggregate and provide visuals of results to help you identify opportunities for further instruction. Save time and visualize student understanding when it matters, now! To get started using Socrative, simply register for a Socrative Teacher account. Your Socrative account will work with other Socrative Apps and via all browsers at [Socrative.com](https://www.socrative.com). Students can connect to your unique room by opening their apps or joining your room at [socrative.com](https://www.socrative.com) on any device. ([Apple App Store Description](#))

Socrative Student Response by MasteryConnect

This is the Teacher Dashboard. This is the screen a teacher would see every time they open the Socrative Teacher App. From this screen you can Start A Quiz, Ask a Quick Question, have the class play the Space Race, or give an exit Ticket.

From the Dashboard the teacher can select Manage Quizzes, that has a wrench beside it to bring you to this screen. This is where quizzes can be created, imported from an outside source, you can view the quizzes that have been created, and then the reports of the tasks you have given.

Reviews For Socrative from [socrative.com](https://www.socrative.com)

MATTHEW PATTY

School: Northside ISD, TX

Matthew is using Socrative in an online Geometry course for advanced math students. He uses Socrative to connect with students online, and he has found its clear data analysis a big advantage. He believes distance learning "is where we are going next, learning in our own time and at our own pace." He likes that Socrative facilitates this pacing so students can learn even when there isn't a teacher in front of them.

ANNA STUART-VIEIRA

School: Trinity Academy for the Performing Arts, RI

Anna teaches 9th and 10th Biology and Chemistry in a school with a lot of tech options for teachers to choose from. Anna chose Socrative because of how easy it is to write assessments and upload images. She conducts Space Races often, which she's found increase student engagement. She also uses Socrative during student presentations to gather peer questions that she uses in quizzes to check for understanding.

RACHEL LANGENHORST

School: Rock Valley High School, IA

Rachel is a Technology Integration Specialist working with grades preschool through 12th. She first discovered Socrative while teaching 6th grade and saw how it helped gauge understanding with quick polls and quizzes. She now uses Socrative with pre-readers to pull pictures and see which sounds they understand. She is also a firm believer in exit tickets! Rachel's students love Socrative. One said, "It's a lot quicker to find out how I did. It's easier for me to use and more fun than a paper!"
