

## Standard Notebooks Free

Standard Notebooks Free is an app that wants to replace your notebooks in class. This app let's you create digital notebooks and manage them in an organized way.

Some features include:

- Create an unlimited number of fully customizable notebooks.
- Choose 4 different types of paper
- Flexible ways of saving documents

## Why is this helpful to us?

Notebooks are an important part of learning today. They are used to record what we learn in an organized way, and almost everyone knows how to use one. Standard notebook free brings this experience to the digital world. Using Standard notebook free feels like you have a notebook with you, but it is easier to use and offers simplicity in the classroom to let students give more attention to learning. Not only is this app easy to use but it allows us to save paper in a big way. In some classes, you can use 2-3 pieces of paper a day, which can really add up. This app offers us the chance to save the environment and to save our class time.
