

# TopNotes

The app we chose was TopNotes. The app is used for taking notes for any use. You cannot type actual words unless you buy the pro version which is \$4.99. The app can lock certain notes, change pen colors, change form of writing utensil, put certain notes in different folders, and simply draw up ideas. Online, our group looked up reviews and articles on TopNotes. The app

has a four star review and has been very useful to many people. the audience of the app can be for a 5 year old or someone that is 50. You can draw on the app as well as take notes. You can use this app when you need to jot down a quick note in a short or long amount of time.

A question people can ask is, "How can I take notes without writing text?"

**The interest that this app has for young teens is, you're more hands on and you won't get bored as easy. It's just like writing on paper but, with technology.**

The iTunes description of the app states, "Topnotes is the best note taking app ever built for your iPad." The review and description of the app also goes into detail about all the wonderful editing tools and usage of the app. It uses examples such

as," full set of highlighter pens and choose paper type for each page." The iTunes reviews are very dependable and are one of the best descriptions of the app.

Another reliable review of TopNotes is from the website, [appato.com](http://appato.com), states,"TopNotes is a powerful app for handwriting and organizing notes, sketches, diagrams, illusions and drawings. It is the easiest-to-use and going to be the best-selling handwriting app for iPad."

## HOW IT WORKS

There is a tutorial on the app that walks you through the tools which makes it very easy to use, you just have to go through 3 steps.
