

## *Vocabulary Builder By Magoosh*

This fun app allows you to explore and improve your vocabulary. Having an expanded vocabulary, can and will improve your life skills. You can either play by yourself, or with people all around the world. When you play, you start by picking a category based on how much you already know. So you can choose basic, intermediate, or advanced. After the category is picked, it gives you words and options of the words meaning and you must pick the correct one, in order to master the level. You can continue doing this until all the levels are mastered. You can practice just to get better at your vocabulary, but also working on the ACT, or SAT's or any other tests.
